

Glen Rock Library Second Grade Science Club

Calling curious second graders! Attend the Second Grade Science Club on Tuesday, October 15th from 4:00 to 5:00 and create a tornado in a bottle. Our young scientists will discover what a vortex is and determine if air takes up space. This hands-on program is sponsored by The Friends of the Library and is part of an ongoing series. Please sign up in the Children's Room.

Family Night Fun

Looking for something fun and free to do as a family? The Library has some special programs coming up to delight families with children ages 3 and up. Two Monday evening Storytime Theatre programs will bring popular children's literature to life in short skits performed by library staff. "Bark, George" will be offered on September 30th and "Elephant and Piggie: We're in a Book," will be performed on December 2nd. Both events begin at 6:45. At Puzzle Night on Wednesday evening, November 13th, families can work together on 24 to 300 piece puzzles. This Friends sponsored program begins at 6:30. Registration is required for both programs.

"Paws" for Reading

Glen Rock Library Children's librarian, Trisha Fishelman, is pleased to announce that the very popular "Paws" program will continue once a month on one Monday evening from 6:30 to 7:30 and one Tuesday afternoon from 3:30 to 4:30 during the upcoming school year. This unique program pairs beginning and experienced readers with a certified pet therapy dog and owner for a short reading time. Fishelman notes that this experience provides an opportunity for children to develop and strengthen reading skills and increase their confidence as public speakers. In addition, families have the chance to make friends with gentle, accepting, well-behaved dogs. Fishelman says that parents often report an increase in their child's motivation to read and a jump in their reading level as they participate throughout the year. Monday evening dates are set for Oct. 7, Nov. 18, Dec. 16 and Jan. 13. Tuesday afternoon dates are Oct. 8, Nov. 19, Dec. 17 and Jan. 14. Please stop in and register for an appointment.
