

For: All Glen Rock Parents and Guardians of
Grades K-5 Students
When: Wednesday evening, November 2, 2011
Time: 7:00 PM – 8:15 PM
Where: The Central School Auditorium
Presenter: Cindy Weinrich, Mathematics Consultant

This **Everyday Math Parent Information Workshop** will provide you with:

- An overview of the *Everyday Mathematics* program;
- Exposure to typical classroom activities; and
- Opportunities to ask questions about the program.

The Glen Rock Mathematics Program Review and Evaluation Committee is excited to continue the next phase of implementing the new elementary mathematics program. The program was implemented for grades K-3 during 2008-09 and in grades 4-5 during 2009-10.

The Committee invites and welcomes grades K-5 parents and guardians to an informative introduction session as we work to strengthen instruction and improve the mathematical knowledge and skills of our students. The past two years of state assessment results indicate significant improvement, especially the percent of students scoring in the advanced proficiency range. Since this program is geared only for parents and guardians, children may not attend. The Central School Auditorium has limited seating; therefore, please R.S.V.P. by returning the below form to your classroom teacher by October 25th. This will be a similar workshop to the one provided last October.

Thank you!
